

Configure Settings

Click on the **Settings** button to open the settings page.

Choose your display name and preferred language

Here you can enter the name that will be displayed during your remote sessions. Your computer ID is the name used by default.

You can also change the language of the interface.

Keep TSplus Remote Support up-to-date

If a new version is available, an **Update** button will be displayed, enabling one click updates for the connection client.

You can enable or disable the automatic updates. Enabling automatic updates will allow you to always use the latest version of the software, with all its new features and improvements.

Check "Install new updates automatically". When a new version is available, the software will automatically update itself when started.
